### **Olton ISD Mission Statement**

It is the mission of Olton ISD to provide equal opportunity of high quality education to all its students. To this end, the District will effectively and creatively use its talents, resources, and time to ensure that each student will be challenged to reach his or her highest potential. The ultimate goal of this District is to help students exit this institution with the knowledge, skills, and values necessary to be productive citizens with an enriched quality of life.

**Board Mission Statement:** The mission of the Board of Olton ISD is to ensure that the people in and affected by the institution have the opportunity to grow and become productive citizens of society. The trustees will delegate operational power, adopt policies, require accountability, evaluate patterns of operation, and ensure flexibility and competence. At all times the Board will maintain accountability to the taxpayers and residents of the District.

### **District Beliefs:**

We believe the following:

1. Every employee of the District is important to the success of our educational goals and objectives.
2. Education is a joint venture that requires the involvement of families, churches, and the community.
3. Open communication is essential to student success.
4. All stakeholders should demonstrate respect for self and others.
5. We must educate all students to reach their highest potential and become life-long learners.
6. We should be innovative in the use of all our resources.
7. We must foster an environment which attracts and retains high quality personnel.
8. Discipline must be consistent and fair for all students.

We must inspire and enable all young people, especially those from disadvantaged circumstances, to realize their full potential as productive, responsible, and caring citizens.

**Campus Mission Statement:** HP Webb ES will improve the academic performance of each student.

**Academic Philosophy** - The faculty and staff of HP Webb ES expects the campus to continually improve on the state's accreditation system known as TAPR(Texas Academic Performance Report). With an immediate goal - All local state assessment results will be at or above Region 17 and state averages for all groups. This will be accomplished by improving student performance each year, and ultimately reaching the highest state rating for the campus.

**Vision Statement:** The VISION of HP Webb ES is to BUILD THE FUTURE....ONE STUDENT AT A TIME.

**Goals and Objectives - CIP Executive Summary -**

Goal I – HP Webb ES will support all district goals.

Goal II – HP Webb ES’s STAAR results will be at or above Region 17 averages by group [Performance Target Goal].

SB 892 states:

“Expands the required components of a campus improvement plan (CIP) for an Elementary, Middle, or Junior High to include goals and objectives for the coordinated school health program at the campus based on student fitness assessment data, student academic performance data, student attendance rates, the percentage of students who are academically disadvantaged, the use and success of any method to ensure student participation in the state-mandated moderate to vigorous physical activity, and any other indicator recommended by the local school health advisory council.”

**Coordinated School Health (CSH)**

CSH is comprised of eight components that focus on the most effective and efficient way to meet the needs of young people. The components incorporate cognitive skills, development of policies that support a positive and hazard-free environment, promote the opportunities for staff members to foster their own well-being, and encourage family and community members to promote the wellbeing of young people.

***Appendix C - Required Program Components [Appendix C – RPC]***

In addition to the fiscal requirements given above, your campus's CIP must also address the following ten program components, as required by the Elementary and Secondary Education Act (ESEA):

1. **The summary of the outcome of the CNA.** The summary is a report or other document that describes the data your campus gathered and used during the CNA, the conclusions you drew from the analysis, and the needs you identified. It should be created by the schoolwide planning team.
2. **Schoolwide reform strategies.** Your CIP must include specific instructional strategies and initiatives, which must be based on scientifically based research, strengthen the core academic program, increase the quality and quantity of learning time, and address the learning needs of all students on your the campus.
3. **Instruction by certified teachers.** Student achievement increases in schools where teaching and learning have the highest priority, and students achieve at higher levels when taught by teachers who know their subject matter and are skilled in teaching it. Federal statute requires that all teachers of core academic subjects and instructional paraprofessionals in a schoolwide program campus meet certain qualifications (given in Section 1119 of ESEA). Your CIP must describe the specific plans and activities that you will implement to meet this requirement.
4. **Quality and ongoing professional development.** Teachers and other staff in schoolwide program schools must be equipped to face the challenge of helping all students meet the state's academic achievement standards. To do this, they must be familiar with the goals and objectives of the CIP, and receive the sustained, high-quality professional development required to implement them. Federal statute requires that professional development be extended, as appropriate, to those who work with teachers to support student achievement, such as principals, paraprofessionals, and parents. Your CIP must describe the specific plans and activities that you will implement to meet this requirement.
5. **Strategies to attract teachers to high-need schools.** Although recruiting and retaining certified teachers is an ongoing challenge in high-poverty schools, low-performing students in these schools have a special need for excellent teachers. Therefore, your CIP must describe the strategies you will use to attract and retain highly qualified teachers.
6. **Strategies to increase parental involvement.** Research continues to demonstrate that successful schools have significant and sustained levels of parental involvement. Therefore, your CIP must contain strategies to involve parents, especially in helping their children do well in school. Your CIP must also demonstrate how parents will be involved in planning, implementing, and evaluating your schoolwide program.
7. **Plans for assisting preschool students in the successful transition from early childhood programs to local elementary schoolwide programs.** This component emphasizes the value of creating a coherent and seamless educational program for students at risk of dropping out of school. Early childhood programs provide a foundation for later academic success, and effective schoolwide programs capitalize on this strong start. Your CIP must include your plans for assisting preschool students.
8. **Measures to include teachers in decisions regarding the use of academic assessments.** In addition to state assessment results, teachers need current and ongoing assessment data that describe student achievement. This data often come from less formal assessments, such as observation, performance assessments, or end-of-course tests. Your schoolwide program should provide teachers with professional development that increases their understanding of the appropriate uses of multiple assessment measures and the use of assessment results to improve instruction. Your CIP must describe the specific plans and activities that you will implement to meet this requirement.
9. **Activities to ensure that students who experience difficulty attaining proficiency receive effective and timely additional assistance.** The schoolwide program campus must identify students who need additional learning time to meet standards and provide them with timely, additional

assistance that is tailored to their needs. This assistance must be available to all students in the campus who need it. Your CIP must describe the specific plans and activities that you will implement to meet this requirement.

10. **Coordination and integration of federal, state, and local services and programs.** Schoolwide program campuses are expected to use the flexibility available to them to integrate services and programs with the aim of upgrading the entire educational program and helping all students reach proficient and advanced levels of achievement. In addition to coordinating and integrating services, schoolwide program campuses may combine most federal, state, and local funds to provide those services. Exercising this option maximizes the impact of the resources available to carry out your schoolwide program. Your CIP must demonstrate how your campus will coordinate and integrate federal, state, and local services and programs.
